

ST-THERMSCAN-1

SecurityTronix ThermScan™ Wall Mounted Non-Contact Forehead Thermometer

The SecurityTronix ThermScan™ accurately and instantly scans the forehead and alerts by alarm if an elevated skin temperature is detected. Quickly get compliant with temperature screening at your place of business.

The intent is not to diagnose, but to raise awareness so people can get a proper assessment before fully entering the business.

- Lower cost than thermal cameras
- Highly accurate
- Quick and easy to install
- Alarm function
- Contactless
- Reduces usage of PPE for manual scanning
- Quick automatic measurement
- Cost-effective, even for small businesses

Key Features

- Detects surface skin temperature without any contact
- Quickly detects surface temperature in less than one second response time
- Alarm alerts if surface skin temperature detected is higher than 99.1°F (37.3°C)
- Digital display

Installation

- Can be mounted with screws (included), double sided tape (included), or on a tripod

Specifications

Temperature Measurement Distance	2" - 4" (5 - 10 cm)	Power Consumption	Less than 3W
Temperature Measurement Accuracy	± 0.4°F (± 0.2°C)	Operating Humidity	95%, non-condensing
Testing Temperature Range	32 - 122°F (0-50°C)	Working Temperature	50 - 104°F (10 - 40°C)
Temperature Measurement Speed	Less than 1 second	Product Weight	0.77lbs (350g)
Abnormal Temperature Alert	Yes	Product Dimension	6.69" x 4.52" x 5.51" (170 x 115 x 140mm)
Working Voltage	USB - DC 5V Power supply included	Bracket	Wall Mount
External Power Supply	AC 100/60Hz	Rating	FCC, RoHS, CE
